

Payroll

Pay your people accurately and on time, every time.

Evolving business regulations and shifting employee expectations mean that managing your payroll has never been more complicated. From dispersed workforces and hybrid office models to mounting compliance concerns, it can feel impossible to keep up. These changes, coupled with complex payroll processes, scattered data, and manual, paper-based systems, increase the likelihood of costly payroll errors that impact both your employee experience and bottom line.

With *isolved*® Payroll, you have the power to seamlessly process your payroll in one place. Access to an intelligently connected human capital management (HCM) platform means you can feel confident that your data is consistent and accurate. And, with selfservice access to all their pay-related information, you can provide your employees with the flexibility needed for an improved experience.

isolved Payroll includes:

- Multiple payroll processing
- Garnishment management
- Real-time payroll preview
- Complete payroll-related tax service
- Certified Payroll for federal compliance
- Year-end W-2/1099 processing
- Check, direct deposit or pay card payment options
- Continuous W-2 access
- Pay and total compensation statement access
- Employee and manager self-service

Key Benefits

Streamline payroll processing and reduce the administrative burden--you can even take advantage of next day ACH options.

Enjoy real-time payroll previews with integrated HR and time tracking data, preventing errors or redundancies.

Access payroll, time and HR data in one centralized location to enhance payroll accuracy.

Utilize robust reporting capabilities to gain strategic insights and make informed business decisions.

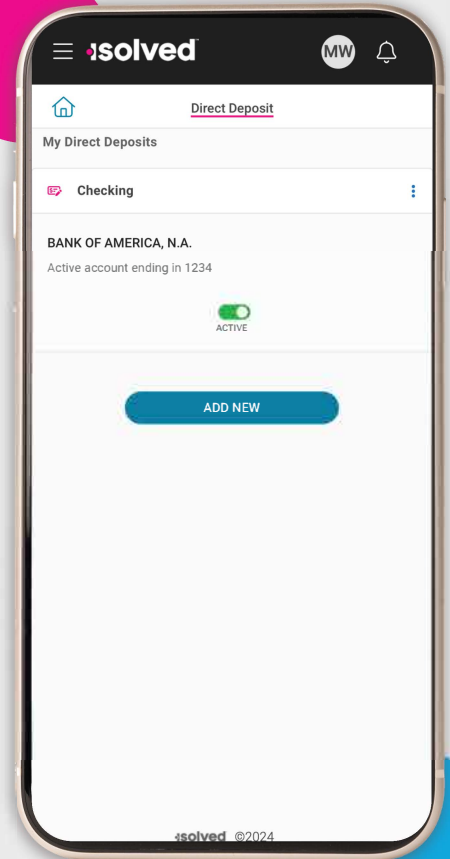

Ensure compliance and mitigate risk by staying up-to-date with the latest regulations.

Empower employees with intuitive self-service access to pay-related information, including pay stubs and time off balances.

Offer diverse payment options, such as direct deposit, PayCard, and OnDemand Pay, for an improved employee pay experience.

Flexible Self-Service

Empower employees with self-service access to personal information, pay stubs, tax forms and more, fostering transparency and ensuring data accuracy for enhanced engagement and productivity.

Automatic Compliance Updates

Ensure compliance and mitigate the risk of penalties with automated tax filing, payroll adjustments, garnishments, and more. Benefit from a multi-layer security strategy and SSAE-16-certified data centers.

Valuable Operational Insights

Unlock the power of payroll data with in-depth, configurable insights. Access over 800 ready-made reports, integrate time-tracking data, and harness deep analytics for enhanced operational efficiency and cost savings.

Make your payroll process simple, efficient, and stress-free with isolved Payroll.
